

TEMPERATURE CONTROLLED CARGO FACT SHEET

THE PERISHABLE GATEWAY - Faster, Fresher, Closer, Cheaper

- Strategically located to serve high growth Southeast U.S. markets
- GPA, as owner and operator, provides the operational flexibility to seamlessly handle frozen and chilled cargo
- Single-terminal operations ensure efficiency
- Nine deepwater berths with 9,693 ft (2,955 m) of continuous berthing
- Highest over-the-road container weight allowance among all U.S. Southeast states
- On-terminal U.S. Customs & Border Protection and USDA exams
- Off-terminal cold storage facilities combine to offer 1,077,320 ft² (100,086 m²) of cold storage capacity as close as six miles from Garden City Terminal
- Closer proximity to southeast merchants equals reduced cost and faster transit to market.
- Coordinated partnerships with the ILA, USCBP, USDA and FDA promote an easy to do business environment for our customers
- Port industry's first Client Relations Center for one-stop issue resolution and assistance
- Dedicated refrigerated cargo team for unmatched knowledge
- 24/7 cargo visibility available at webaccess.gaports.com
- Cold treatment certification for specific commodities
- In transit cold treatment completion
- Cold treatment-retreatment services, the only port certified in the Southeast

Global consumers expect year-round access to fruits, vegetables and proteins, and the Port of Savannah is ready to meet this demand. Savannah's strategic location and unmatched infrastructure offer lower cost and faster, more reliable transportation to markets across the Southeast such as Atlanta, Memphis, Charlotte and Orlando. Savannah is the number-one port for containerized, refrigerated export cargo on the U.S. East and Gulf Coasts and is the new gateway of choice for perishable imports for the Southeast. Georgia Ports Authority's experience, along with dedicated customer care and flexibility, means the Port of Savannah can meet all your temperature-controlled cargo needs.
